**Listing of Claims:**

Claims 1-7. (*Canceled*)

- 1    Claims 8. (*New*) A concrete coloring tool for evenly distributing coloring powder onto concrete, said  
2    tool comprising:
- 3            a substantially rectangular perforated base defining a periphery, said base being formed of a  
4    flat, uniformly perforated sheet material and defining a plurality of holes dimensioned to allow an  
5    optimum amount of coloring powder to sift through at a controllable rate;
- 6            a substantially rectangular frame attached about the periphery of said perforated base, said  
7    frame having four solidly formed walls extending upwardly from said base to define an enclosure  
8    dimensioned to prevent spillage during sifting of the coloring powder;
- 9            an adjustable handle pivotally attached to and extending from one of the walls of said frame.

- 1    Claim 9. (*New*) The concrete coloring tool according to claim 8, wherein each of the holes of said  
2    perforated base has a diameter of about 1/16 of an inch.
